

# 2010 POND STOCKING AND GRASS CARP PROGRAMS

**Pond Stocking**  
**Order Deadline: August 5, 2010**  
**Pickup Date: August 19, 2010 10:00am SHARP**

**General Information:** All fingerlings will be 1-2" in size. Stocking rates usually are 50-100 bass and 500-600 minnows per surface acre. If your pond is relatively new, be sure there is vegetation for reproductive habitat and aquatic life for a food chain. Recommended time to establish a pond before stocking is one year. You **MUST** obtain a stocking permit from the DEC prior to pickup. Applications are available in our office.

**Pickup Information:** Pickup will be at the SWCD office located at the northeast end of the Coop. Extension Administrative Building on the County Fairgrounds, Route 78, Lockport. Your order will be pre-counted and in an aerated bag for your convenience. You will just need to bring a box or cooler in which to stabilize the bag for transport. Transferring the fish to your pond immediately is of utmost importance due to oxygen needs. The hatchery personnel will be available for only 1/2 hour for delivery so **PLEASE BE PROMPT!**

**Triploid Grass Carp for Aquatic Weed Control**  
**Order Deadline: September 1, 2010**  
**Pickup Date: Tentatively scheduled for the third/fourth week of September**

**General Information:** The average size of the carp will be between 10-12". You **MUST** obtain a stocking permit from the NYS Department of Environmental Conservation. There is no charge for the permit. If you require a permit application, our office retains a supply of them. Stock grass carp only in ponds which have been properly protected so they are unable to escape through inlets and outlets into other NYS waters.

**Pickup Information:** Tentative pickup will be the end of September at the County Fairgrounds, Rte. 78, Lockport. We will contact you by phone when a definite date has been scheduled. At the time of pickup, you will need to bring a container WITH A LID (an 18-gal plastic tote holds 4 carp) filled 1/2 full with pond water. These fish are highly perishable and must be transported as quickly as possible. For more information on Triploid Grass Carp and how they can benefit pond weed control, call #434-4949.

**Payment Information:** Submit payment by check or money order with the bottom portions of this form, payable to Niagara County SWCD. Keep the top portions as your delivery date reminders.
