AN EMAIL REMINDER WILL BE SENT PRIOR TO THE PICK UP DATES

***** PICK-UP DATES FRIDAY, APRIL 21 & SATURDAY, APRIL 22 *****

Seedling orders are filled on a first come, first served basis. As we have no control over the weather or your choice of planting sites, times or techniques, the SWCD WILL NOT BE RESPONSIBLE for your trees and shrubs after they leave our distribution center. We cannot offer refunds or replacements. All trees and shrubs sold are to be used for effective conservation practices and will not be planted for ornamental purposes. Trees and shrubs sold will not be removed with roots attached for resale. This is in compliance with NYS Sale and Use Tax Regulations, 20 NYCRR, Section 529.2(c).

****DECIDUOUS SHRUBS****

****CONSERVATION PACS****

Each pac contains 10 seedlings total - 2 of each variety

Butterfly Bush (*Buddleia davidii*)

Multi-stemmed, with fragrant 4-10" flowers summer thru fall. Grows very quickly in all types of soil to 8'. A little heavy pruning each spring will keep it under control. Plant near a garden to attract hummingbirds, butterflies and bees.

Cranberry, American (*Viburnum trilobum*)

Fast growing to 8-12' this native prefers well-drained to moist soils. White flower clusters in May. Yellow to red fall color. Sour edible red fruits present summer thru winter are rich in vitamin C and enjoyed by humans and wildlife.

Dogwood, Red Osier (*Cornus sericea, syn. C stolonifera*)

Dense, fast growing 7-9' native also known as *red twig* for its dark red bark. Does well in damp soil conditions and is frequently used for bank erosion control. Hardy and attractive, it produces white flowers and berries, and boasts a purplish red fall color. Brilliant red stems are very showy in winter.

Eastern Sweetshrub (*Calycanthus floridus*)

Deciduous shrub with glossy, aromatic, leathery, dark green leaves with deep red flowers. Will grow 6-9' high and wide. Prefers a sunny area with partial shade and a moist, well drained soil. Great for a butterfly garden.

Elderberry (*Sambucus canadensis*)

Vigorous grower to 12' in any type soil. Multi-stemmed, with clusters of purple-black fruits in late summer, used for jams and wine. A great native wetland plant. Good food source for wildlife.

Lilac, Common (*Syringa vulgaris*)

Easy to grow, old-fashioned favorite. Masses of fragrant white to lavender flowers and bright green leaves in Spring. Will grow in well-drained soils to 15'. Makes beautiful natural screen spreading 6-10'.

Nannyberry (*Viburnum lentago*)

A large full shrub with white flowers in the springs and blue berries in the fall. Berries are edible and known for a prune/banana like flavor. Grows in moist to well-drained soils and up to 20' tall.

Ninebark (*Physocarpus opulifolius*)

Easily grown deciduous native shrub, in full sun to part shade, and in a wide range of soil types. Noted for its reddish exfoliating bark and showy pinkish-white five petal flower clusters May-June. Grows upright to 10'. Used for hedges and erosion control on streams and rocky banks. Great for borders and winter wildlife habitat. Able to withstand harsh conditions.

Serviceberry (*Amelanchier alnifolia*)

A native to North America, this 6-20' suckering multi-stemmed shrub thrives on moist, well-drained acidic soil and tolerates a wide pH range. White flowers in April produce dark purplish fruits in June. That is how it got its other recognized name of "Juneberry". This shrub is enjoyed by many types of birds. Prune regularly for best fruit production.

Winterberry (*Ilex verticillata*)

Slow growing deciduous holly, easily grown in average or acidic, medium to wet soils, in full sun to part shade. Native upright, rounded shrub that typically grows 3-12' tall. Greenish-white flowers in spring give way to showy, bright red berries in late summer to fall, which persist thru winter on bare branches. Has elliptic, toothed, dark green 2-3" leaves that turn shades of maroon in autumn.

****SPECIAL OFFERS****

American Chestnut (*Castanea dentata*)

The American Chestnuts were once one of the most plentiful, versatile and valuable forest trees in the eastern United States, until a blight in the early 1900s virtually eliminated most natural stands. This 100' tall hardwood was an important component of forestland that covered millions of acres. Its' straight, beautiful wood was widely used for railroad ties, fence posts, construction lumber, and furniture. It was also very important for wildlife, providing a prolific amount of nuts for white-tailed deer, wild turkey, black bears, and others. American Chestnuts do best in full sun on porous soils of moderate depth and fertility, such as rocky hillsides and gravelly or sandy soils. For pollination, plant all seedlings less than 100 yards from each other where their roots will not be disturbed. Rapid growers, they will produce nuts within 7-10 years.

Apple Trees:

All trees are 4-6' tall, 1/2" to 5/8" caliper, bare-root. The Nursery supplier will select and pack an assortment of various types for quality pollination.

Starter Package (5 trees)

Hardy, easy to grow varieties preferred for blight resistance and persistence.

Wildlife Package (5 trees)

Excess or misshapen trees not adequate for orchards, these are still suitable to enhance a backyard wildlife area and provide food for people, birds, deer, and other wildlife.

Edible Pac: Blackberry, Raspberry, Strawberry, Blueberry- Blue Ray & Jersey

Plant in sandy, well drained soil. Full sun. Use trellises for blackberry and raspberry. Water strawberry more frequently while fruit is forming (1-2"/wk). Space blueberry 4-6' apart with both types in close proximity for pollination.

Nut Tree Pac: Five Oaks- White, Swamp White, Red, Pin, Sawtooth

All selections grow 50-80' and require at least 6 hours of sun daily. Acorns provide food for not only humans, but a variety of birds and other wildlife.

Perennial Pac: Daylily- Dream Baby, Frances Fay, Stella De Oro
Iris- Blue King, Snow Queen

Plant in full sun to partial shade. Will flower year after year.

Wetland Habitat Pac: River Birch, Willow, Sycamore, Buttonbush, Red Osier Dogwood

These attractive trees and shrubs like the moisture and will provide habitat for birds and other wildlife in the wetter areas.

****OTHER ITEMS****

Pachysandra (*Pachysandra terminalis*)

A carpeting plant with an interesting leaf pattern and inconspicuous white spike flowers. Grows 6-12" high in well-drained soil. Excellent for heavy shade.

Milkweed Seed

Monarch butterflies cannot survive without this host plant. Females only lay their eggs on native milkweed because their young caterpillars need it to grow and develop. Milkweed is disappearing from our landscapes. Planting it will not only help the Monarch, but the nectar is enjoyed by many other pollinators and hummingbirds as well. Plant in full sun to part shade, 1/2" deep in well-drained soils. Blooms sweet-scented light purplish 2-6' tall flowers in summer. Named for its milky white sap, it produces pod-like fruits that split to release new seed attached to fluffy, silky hairs that aid in wind dispersal. NOTE: Seeds need cold stratification. Place them in refrigeration for 30 days prior to planting. ALSO: DO NOT SPRAY THIS PLANT! Pesticide use is toxic to monarchs and their offspring.

Wildflower Seed

A **100% pure seed** mix of balanced blends of annual and perennial native wildflowers. Good for renovating old pastures, commercial sites and unused portions of lawn. Can be planted on moderate slopes to stabilize soil. Will grow in all soil types, even poor. The better the site, the better the outcome.

Deer Plot Mix

Mix of annuals and perennials that will attract and maintain deer. Includes several ryes, clovers, wheat, alfalfa, timothy, proso millet, birdsfoot trefoil, sainfoin, lathco flatpea, cicer milkvetch, and much more. Also good for birds and rabbits. Annuals provide growth the first year and act as nurse crop for perennials. Plant generously in open fields, along trails, or the edge of woods.

Tall Mix

Contains 20 short and tall varieties of annuals, including sorghums, millets, beans, and sunflowers. Grows 4 to 8 feet tall. Excellent for planting along fence lines, edges of woods, and strips in fields. Attracts pheasant, dove, quail, and turkey.

Fertilizer Tablets

A slow-release pellet 20-10-5 (nitrogen-phosphorous-potash) made specifically for 1-2 year old seedlings. Safe, easy, convenient. Planting instructions included.

PICKUP INFORMATION

Don't Forget, Mark Your Calendars Now!

If you cannot pick up your order on the scheduled dates, please make arrangements with someone to pick it up for you.

Pickup Days: Friday, April 21, 2023 8:00am to 4:00pm
Saturday, April 22, 2023 9:00am to 12:00pm

Location: Niagara County Fairgrounds - Merchant Building
4487 Lake Ave (RT 78), Lockport
